ACADEMIC QUALIFICATION

Last updated: August 2026

DEGREE	INSTITUTE / UNIVERSITY	YEARS
Ph.D. in Mining Engineering	Universidad de Chile, Chile	2025 (ongoing)
Master of Science (Geology)	Banaras Hindu University, India	2022-2024
Bachelor of Science (Geology)	Cotton University, Assam, India	2019-2022

RESEARCH BACKGROUND AND PUBLICATIONS

1. Published first-authored article **“Geostatistically Enhanced Learning for Supervised Classification of Wall-Rock Alteration Using Assay Grades of Trace Elements and Sulfides”** in the Minerals Journal (DOI: 10.3390/min15111128). Selected as Editor’s choice in Minerals.
2. Presented research on **“Combining Machine Learning and Geostatistics for Supervised Classification of Hydrothermal Alteration Data”** at the 9th International Conference on Geology and Mining (GeoMin Mine Planning 2025, Santiago, Chile).
3. Oral presentation on **“Coupling Geostatistics and Machine Learning for Regionalized Classification of Land Use and Rock Types from Soil Geochemical Data,”** delivered at the Fourth Triennial Congress of the Federation of Indian Geosciences Association 2025, Hyderabad, India.
4. Conducted an online seminar titled **“A Combined Use of Geostatistics and Machine Learning to Predict Hydrothermal Alterations for Mineral Exploration,”** organized as part of the 4th Mineral Prospectivity and Exploration Targeting (MinProXT) event 2025, Ottawa, Canada.
5. Oral (online) presentation on **“Integration of Machine Learning and Geostatistics for Hydrothermal alteration Classification in Smart Mining”** at the European Geosciences Union 2026, Vienna, Austria.

JOB EXPERIENCE

Technical Officer – Hydrogeology (Govt. of Assam, India)
Jal Jeevan Mission, Assam | August – December 2024

PROJECTS

1. Documenting Degraded Rivers of Assam (2022) | Awarded 1st Prize among 20 top selections across India.
Project funded by AARANYAK (Scientific and Industrial Research Organization of India)
2. Junior Research Fellow (JRF) | Cotton University, Assam | October 2025 -March 2026
Project Title: *Development of algorithms and software plugins for Geostatistical Co-simulation and Regionalized Classification for aiding in deposit scale modeling.*
Project funded by Technology Innovation in Exploration and Mining (TEXMiN) Foundation (Govt. of India)

AWARDS

EPEC Doctoral Scholarship Award | 2026 International Scholarship of the School of Postgraduate and Continuing Education, Universidad de Chile.
